Generic palette references. Choose physical floss to match the swatches.

Use 2 working strands on 14-count Aida and a suitable blunt tapestry needle.

Keep upper diagonals consistent. End long carries across unstitched spaces.

Start from the center or a measured corner. Count every blank cell.

Test colorfastness before cleaning. Add mounting margins before cutting.

Digitally validated chart. Physical stitch testing has not been performed.

Motif bounding boxes (column, row; 1-based):
