Generic palette references. Choose physical floss to match the swatches.

Practice on 14-count Aida, or use a compatible removable counting guide.

Choose a needle suitable for the base fabric. Test strand count on a scrap.

Keep upper diagonals consistent. End long carries across unstitched spaces.

Start from the center or a measured corner. Count every blank cell.

Test colorfastness before cleaning. Do not cut the base garment.

Digitally validated chart. Physical stitch testing has not been performed.

This individual chart uses local coordinates beginning at column 1, row 1.
